Good afternoon,

As you may be aware, unlike other states, NYS Ed Law 2D enacted data privacy protection and data security compliance requirements as the responsibility of NYS school districts to add addendum agreements to any master contract or click-wrap terms of service agreement. If a school district uses a Board of Cooperative Education Services, or BOCES, as their procurement agent for subscription contracts, then the Data Sharing & Confidentiality Addendum Agreements can be secured on their behalf for the contracted vendor service.

**Breathing Zone** software and web-based services are used by one or more of our component districts in the 2020-21 school year. Our goal is to ensure that the compliance requirements for NYS Ed Law 2D are in place for all vendor products & services, as quickly as possible, to continue agency or district use without disruption. We have reviewed your posted Privacy Policy.

**According to your Privacy Policy it looks like you do not collect any Personally Identifiable Information. Can you confirm that this is accurate? We just need an email response to keep in our records.**

Please let me know if I can clarify any questions in order to review our request.

Thank you so much!
