Hi Gail,

Since EventSentry is an on-prem solution and not managed by us, we would not have access to student personally identifiable information.

Your sysadmins may have access to that information, and they may feed that information into EventSentry, but we would still not have access to that information since we do not have access to your EventSentry installation.

The only way we would have access to this type of information is if it was deliberately sent to us (e.g. via email) by your IT team.

I hope that clarifies and explains.

Best regards,  
Ingmar Koecher

Good morning Ingmar:

Do you have access to or collect student personally identifiable information?

I will need a written response, in order to show our districts that you are Ed Law 2d/Part 121 compliant.

Thank you,  
Gail
